

Delta Bluegrass Company

Delta Sod is planted in peat soil making it 40% lighter in weight than typical sod. Delta's sod-quality seed selection produces a weed-free turf and their high seeding rates produces a dense turf with fine blades.

TRADITIONAL SOD PRICING:

Bolero, Bolero Plus, 90/10 and Blue/Rye
Shady Blend

Under 200 sq. ft.

\$0.95 sq. ft. (\$9.50/roll)
\$1.00 sq. ft. (\$10.00/roll)

Over 200 sq. ft.

\$0.75 sq. ft. (\$7.50/roll)
\$0.80 sq. ft. (\$8.00/roll)

TRADITIONAL SOD Installation by Delta Sod Delta Bluegrass does not offer prep work or irrigation. The area must be "sod ready" when they come to install. Ask our staff for referrals.

Front/Backyard: If less than 2,000 sq.ft. there is a \$285 flat fee. If the installation is 2,000 sq.ft. or more than the install is \$0.15 per sq.ft. in lieu of the \$285 flat fee.

*** ALL Prices Are Subject To Change.

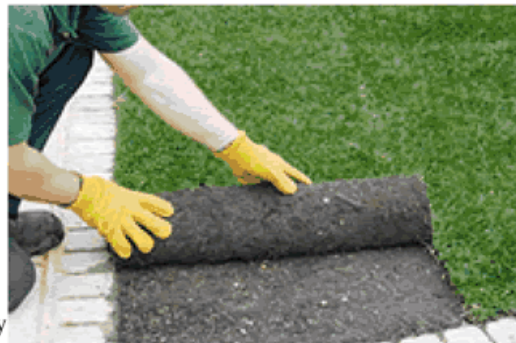

*** Sorry, NO Returns On Sod.

*** Cancellations MUST be made 48 hours before scheduled delivery date.

Sod Variety Information:

Bolero 100% Bolero Dwarf Tall Fescue. Fine, bluegrass-like texture, drought and heat tolerant, excellent disease resistance, insect resistant, beautiful dark, blue-green winter color, slower growing, fewer clippings.

Bolero Plus 90% Bolero Dwarf Tall Fescue/10% Kentucky Blue grass. Provides the same qualities offered in Bolero. The bluegrass assures better density, faster wear recovery and better wintering.

90/10 90% Tall Fescue Blend/10% Kentucky Bluegrass. Stands up better to high traffic areas, better drought and heat tolerance, disease and insect resistant, adapts to shade, coarser blade, deep rooted, good color, low maintenance.

Blue/Rye 50% Kentucky Bluegrass Blend/50% Perennial Ryegrass Blend. Fine bladed look, dark blue green color year around, resistant to powdery mildew, Fusarium and rust, fair heat and drought tolerant.

Shade Blend 60% Dwarf Tall Fescue/15% Creeping Red Fescue/15% Chewings Fescue/ 10% Kentucky Bluegrass. Specifically designed to excel in full and filtered sun. Contains two tall fescues and fine fescue varieties known to excel in up to 40% shade. Excellent heat and wear tolerance for high traffic areas.

Other Sod Information:

- ⇒ Orders must be picked up within 24 hours of sod arrival.
- ⇒ Residential orders (over 200 sq. ft) must be pre-paid and placed 72 hours in advance.
- ⇒ There is a \$85.00 delivery charge
- ⇒ Deliveries over 1,000 square feet are FREE! If a bobtail is needed in a tight location an \$85.00 fee will be applied.
- ⇒ Sorry, no Sunday or holiday deliveries.
- ⇒ Deliveries are between 7 a.m. and 4 p.m., we **cannot** schedule a specific time.
- ⇒ You will be notified by phone the day before with a 2 hour delivery window.
- ⇒ Sod is ALIVE! Yamagami's recommends laying it the day it arrives, within 6 hours.

Delta Native Sod

Delta Sod has developed native grass varieties and combinations to make attractive, water-wise lawns. These grasses use up to 50% less water and need much less maintenance than conventional lawns.

Roll size = 10 sq. ft. (2 ft. x 5 ft.)

NATIVE SOD PRICING:

Native Mow Free, Native Bentgrass, Delta Grassland Mix : \$3.00 sq.ft. (\$30.00/roll)
Kurapia : \$5.00 sq.ft. (\$50.00/roll)

NATIVE SOD Installation by Delta Sod Delta Bluegrass does not offer prep or irrigation. The area must be "sod ready" when they come to install. Ask our staff for referrals.

Front/Backyard: If less than 2,000 sq.ft there is a \$420 flat fee. If the installation is 2,000 sq.ft. or more it is \$0.21 per sq. ft. in lieu of the \$420 flat fee.

* Native sod is trickier to handle and install than traditional sod; Yamagami's recommends Delta install it.

*** ALL Prices Are Subject To Change. *** Sorry, NO Returns On Sod

*** Cancellations MUST be made 48 hours before scheduled delivery date.

Native Sod Variety Information:

Native Mow Free Contains 2 native fine fescues and one highly naturalized variety. Excellent shade and cold tolerance. Dark green, slow growing, narrow-leafed, lax grass. Provides erosion control on slopes.

100% Native Bentgrass Mono stand provides a uniform growth habit & fine leaf texture. Thrives in full sun & partial shade. Withstands low mowing heights of 1.5 -2". Strong sod mat provides an effective weed barrier. Stolons and rhizomes provide a self-repairing growth habit under low impact traffic.

Delta Grassland Mix Contains a blend of native Junegrass, Slender Hairgrass and Molate Fescue. Narrow, fine-leafed texture. Moderate wear tolerance. Slow growing, clumping grass. Prefers part-shade, tolerates full sun.

Kurapia Lippia nodiflora L. 'Kurapia'
Perennial plant, sterile, non-invasive.
Produces small white flowers May to November
Low growing 1-3" tall
Full Sun to Partial Sun
Once established, 60% less water than traditional sod.
